Sanluca

Design by
Favaretto & Partners

Sanluca is a 360° office program, able to adapt to all of the office environments needs and demands. Designed with the “lifestyle” flexibility in mind, Sanluca is a new co working approach. Faster to reconfigure and adapt, more informal and open, but private where necessary with the adaption of simple privacy screens. Modular seating create a warm and welcoming environment, mixing an at home feel with the office climate. Curved and round edges in conjunction with high quality materials compliments its already unparalleled comfort via a steel and FCS certified frame and injection moulding. Lounges consisting of multiple adaptations in either low, mid or high back and single, double and triple seater widths.

Design by Favaretto & Partners

Curiosity, tenacity, and passion for research have characterised the work at Favaretto & Partners Design Studio for more than 40 years. Specialising in industrial design and interior architecture, the Studio founded in 1973 in Padua by Paolo Favaretto. In the 1980s, the Studio was one of the first in Italy to engage in business relationships abroad, collaborating with prestigious companies in North America, Europe, and Asia.
